About Me

Team Leader & Test Automation Architect with 8+ years of hands-on experience in building scalable, maintainable automation frameworks.
I lead teams, write test code daily, and drive CI/CD-integrated solutions that accelerate quality delivery.
Passionate about clean architecture, team growth, and solving real-world testing challenges..

Core Strengths

- Hands-on experience with test automation using .NET (C#) and Selenium.
- Enjoy mentoring QA professionals and sharing knowledge through training and lectures.
- Strong problem-solver with a practical, can-do mindset.
- Great team player with clear communication and close collaboration with dev and product teams.

Professional Experience

Centrical – Raanana

Team Lead – Test Automation Architect | SDET
Jan 2022 – Present
- 100% hands-on: actively designing, developing, and maintaining scalable automation frameworks using .NET (C#), Selenium, and CI/CD tools.
- Leading an automation team: task delegation, mentoring engineers, code reviews, and performance management.
- Built enterprise-grade frameworks supporting distributed and microservice-based systems.
- Resolved test performance and stability bottlenecks, significantly reducing test cycle time.
- Developed infrastructure for parallel execution, intelligent waits, and retry logic.
- Owned release validation processes and collaborated with Dev, QA, and DevOps to ensure smooth, timely, high-quality releases.

Automation Developer
Jan 2019 – Jan 2022

- Developed and maintained robust automated tests (UI & API).
- Implemented retry logic, parallel execution, and reporting mechanisms.

- Strengthened test reliability and coverage across multiple product layers.

Manual QA Tester & Automation Developer
Jan 2019 – Jun 2021

- Manual Testing (70%): Authored STP/STD/STR docs, executed regression cycles (Web & Mobile).
- Automation (30%): Converted manual tests to automated scripts using Selenium & C#.

S.H.A.Y (Freelance)

QA Lecturer & Career Coach
Aug 2017 – Mar 2022

- Taught QA methodologies, SQL, HTML/CSS/JS.
- Mentored students for ISTQB certification.
- Conducted mock interviews and career guidance sessions.

Bank Leumi – Lod

Application Tester
Aug 2018 – Jan 2019

- Performed system and regression testing on banking platforms.

Bezeq – Tel Aviv

QA Team Lead
Jul 2017 – Aug 2018

- Managed manual and automation QA teams.
- Oversaw QA for b144.co.il, coordinated cross-team activities.

QA Engineer
Aug 2016 – Jul 2017

- Authored test plans, executed functional and integration tests.

Education

DevOps Experts – DevOps Program *(Jun 2024 – Sep 2024)*
 Key Topics: Docker · Jenkins · CI/CD Pipelines

HackerU – QA Program *(2016)*
 Key Topics: Software QA · Test Documentation

Technologies Snapshot

- **Languages & Frameworks:** C#, Python, Java, Selenium, Appium, NUnit, MSTest
- **Automation Practices:** API, UI & Performance Testing · POM · SOLID · Clean Code
- **CI/CD & DevOps:** Jenkins, GitHub Actions, TeamCity, Docker, Kubernetes, AWS
- **Infrastructure & Tools:** SQL Server, IIS, Selenoid, RemoteWebDriver, DevTools Protocol
- **Monitoring & Logs:** Datadog, Coralogix, ReportPortal, log4net, Serilog
- **Productivity & Collaboration:** Git, Postman, Swagger, Jira, Confluence, Agile, Feature Flags

Languages: Hebrew – Native · English – Professional Working Proficiency
